

Dear Parent(s) or Guardian(s):

What a special year this will be for Fort Hamilton CYS! In partnership with Terry Finch, we will be introducing a Math Enrichment Program. This Fall our children will have the opportunity to participate in math enrichment classes, meet new peers, make new friends, and learn new skills. We are delighted to extend an invitation for your child/ren to participate in CYS Enrichment 2021!

Our Fall Enrichment Program is not designed to be an accelerated pressured program. Our primary goal is for each child to have a wonderful and enjoyable math experience while learning and reinforcing needed educational and social concepts throughout the upcoming school year.

Registered Children in grades 2-8 will have the opportunity to participate in math enrichment classes provided for their grade level. Classes have been developed carefully and will be carried out by Mr Finch, a New York Certified Teacher.

Parents/Sponsors will be required to attend our Enrichment Program Orientation scheduled for 4 PM August 27th 2021 @ Youth Services Building 412 to ensure the best possible outcome for program success. Registration information for the Fall Enrichment Program will be included with CYS Summer Camp Week 9 schedule and will be at no cost to our Fort Hamilton Families.

Welcome to the CYS 2021-2022 School Year!

Lisa Sheehan
Fort Hamilton Outreach Director
