Army Under Secretary visits Redstone Arsenal

REDSTONE ARSENAL, Ala. – Under Secretary of the Army Gabe Camarillo made his first visit in his new role to Redstone Arsenal to learn more about the installation's mission, organizations and global impact, and its support to the Army's people, readiness and modernization priorities. Camarillo, who was sworn in as the 35th Under Secretary of the Army in February, is very familiar with the logistics and sustainment enterprise. He learned about the installation's support mission and its \$18 billion total economic impact on the Tennessee Valley.

AMC delivers plan to modernize OIB to House Depot Caucus

WASHINGTON – The legislative movers and shakers who shape the future of the Army's Organic Industrial Base heard from Army leaders about the service's impending requirements for a modernized OIB to support and sustain the future force. The reception marked the rollout of the OIB Modernization Implementation Plan. Gen. Ed Daly thanked the caucus members for their continued advocacy and for their leadership in regard to authorizations and appropriations in support of the Army's OIB.

Army industrial base poised for holistic modernization

REDSTONE ARSENAL, Ala. – As the Army undergoes its greatest transformation in more than 40 years, senior leaders are taking steps to ensure persistent modernization of the Organic Industrial Base to sustain the next generation of Army equipment, current unit readiness and the ability to surge in support of contingencies. The Army's OIB Modernization Implementation Plan will modernize the 23 depots, arsenals and ammunition plants that manufacture and reset equipment, generating readiness and operational capability throughout Army formations.

AMC realigns supply chain management workforce

REDSTONE ARSENAL, Ala. – Army Materiel Command and its major subordinate commands – including the Lifecycle Management Commands – are in the process of standardizing and streamlining the way it manages the Army supply chain through an initiative called Supply Chain Optimization. The effort seeks to improve effectiveness by ensuring supply chain management is both data-driven and efficient. The optimization efforts will impact more than 2,000 professionals working within supply chain management across the AMC enterprise.

LRC Benelux tasked with turning tactical vehicles green

CHIÈVRES AIR BASE, Belgium – More than a few tanks, armored vehicles and other Army tactical vehicles have been spotted at various locations across Europe recently, but what really stands out to many is their color. No longer are people witnessing the desert tan color they've grown accustomed to for the past 20 plus years. Instead, it's back to the days of old with a fresh coat of olive drab green – or OD green – and a small team at Logistics Readiness Center Benelux is helping to make that happen.

PEOPLE FIRST – QUALITY OF LIFE UPDATES

New Fusion Directorate center focuses on providing services

FORT SILL, Okla. – Fort Sill is participating in the one-year trial of the Army pilot program to redesign the Sexual Harassment/Assault Response and Prevention program to be more victim-centered with the fusion directorate. The fusion directorate offers a synchronization of investigative, legal and advocacy services in a central location outside of a unit footprint, in an effort to provide privacy for the victims. The Fusion Directorate serves as a one-stop shop available to leaders and community members to provide information, guidance and resources.

Plan ahead for PCS season with Military OneSource

FORT CAMPBELL, Ky. – A permanent change of station can be overwhelming for Soldiers and their Families, but Military OneSource has all the free resources they may need to overcome the challenges associated with moving. Military OneSource is a Department of Defense-funded program that provides an informational and support hub for military communities, covering topics from tax assistance and spouse employment to moving and housing benefits. Soldiers enrolled in Defense Enrollment Eligibility Reporting System are all eligible to sign up.

Timberline CYS facility reopens

FORT CARSON, Colo. – After six months of hard work and dedication, the Fort Carson Timberline Child Youth Services facility is now open after a ribbon-cutting ceremony. The facility will house the Parent Central Office, Youth Sports and Fitness, Family Child Care, full-day child care and School Support Services. The reopening of the renovated facility provided Soldiers and Family members an opportunity to visit with representatives for youth sports, the child care centers and school liaison officers.

Baltimore Ravens coach celebrates Month of the Military Child with APG kids

ABERDEEN PROVING GROUND, Md. – To kick off the APG Month of the Military Child celebration, garrison children were encouraged to embrace their uniqueness during a special reading by Head Coach of the Baltimore Ravens John Harbaugh, during the annual Tell Me a Story event. More than 48 families and 90 children registered and took part in the event, both at the facility itself and through live broadcast.

Fort Hood first DOD installation to sign monarch pledge

FORT HOOD, Texas – Fort Hood joined the National Wildlife Federation's Mayors' Monarch Pledge, making it the first installation across all military branches to reaffirm its commitment to creating habitat for the monarch butterfly and other pollinators.

AMC public affairs professionals tell Army story

REDSTONE ARSENAL, Ala. – Army Materiel Command recently held its David G. Harris Public Affairs Competition, recognizing accomplishments in print, multimedia and community relations. This year, the competition included 30 categories, 28 of which feed into the Department of the Army's Maj. Gen. Keith L. Ware Communications Awards Competition.

Tobyhanna expands role in modernizing command centers

TOBYHANNA, Pa. – Soldiers in the field can now safely connect with their leadership at home – all thanks to a rapidly-growing workload at Tobyhanna Army Depot. A cross-functional group of employees continue to support installation and upgrade missions for the Home Station Mission Command Center and Mission Command Facilities programs, which establish and improve joint operations mission centers around the world.

Wisconsin team focuses on training, energy reduction

FORT McCOY, Wis. – By focusing on improving and innovating in training and delivery of content, and through targeted energy reduction strategies that will pay dividends for years, the Wisconsin Army National Guard's team in charge of environmental quality and environmental management systems has made significant improvements in its unit's environmental performance.

ACC conducts evaluations for Korea-based contracting units

CAMP HUMPHREYS, Republic of Korea – Soldiers from the 411th Contracting Support Brigade and 906th Contracting Battalion, completed an external evaluation to determine the overall readiness of both units. An external evaluation is a unit level exercise designed to measure the proficiency rating of selected collective tasks in accordance with the Army standards.

TRADOC emergency manager visits Fort Rucker

FORT RUCKER, Ala. – With hurricane season quickly approaching, U.S. Army Training and Doctrine Command's current operations emergency manager, Jerome Wise visited the home of Army aviation to gather information and better understand how the installation conducts emergency management locally. His goal was to see how Fort Rucker manages and oversees their plan to protect its people and the critical aviation assets.

Ansbach units and families compete in "Resiliency Games"

ANSBACH, Germany – The Resiliency Games have landed at Ansbach, starting with the "Resiliency Run" as the kick-off event. The games are a series of events that will be testing unit resiliency, bringing the Ansbach military community together in a friendly but intense competition.
